Dear Parents/Carers,

Bringing food to school

Food allergies are becoming increasingly common among children and we have had a number of children with food allergies and severe allergic reactions to nuts and other allergens. Any exposure to these items, even a tiny amount, could be potentially very serious and life threatening for these children.

We would like our children and families to help make the school environment safer for all children, by following these simple suggestions:-

- Please avoid sending any food that contain nuts, such as peanut butter or Nutella sandwiches, muesli or health bars with nuts to school with your child
- Please remind your child/ren never to share his/her food and drinks with other children
- Please remind your child/ren often to wash their hand before and after eating
- Please note that we are **unable to accept** food items in school for sharing with the class for special celebrations like birthdays, Easter or Christmas

We greatly appreciate your support for children with food allergies.

Yours faithfully

Dr George Koutsou
