7th February 2020

Dear Parents/Carer,

The local authority have contacted schools to provide further information about the Coronavirus to parents. Please read the advice below from the DFE and other information that you can access if you have concerns. Please do not be alarmed as the Coronavirus presents a very low risk to those that have not travelled to China recently.

The UK government is closely monitoring the spread of the Coronavirus and is taking action at home and abroad.

The overall risk of Coronavirus to the UK remains moderate. However, we understand that people may be concerned where there are children, students or staff returning from or visiting China. Public Health England and the Foreign Office have issued advice for anyone travelling to the area. This can be found at:

- <https://www.gov.uk/foreign-travel-advice/china>
- <https://www.gov.uk/government/news/wuhan-novel-coronavirus-and-avian-flu-advice-for-travel-to-china>

Latest information and advice can also be found at: <https://www.gov.uk/coronavirus>

Advice for parents/guardians

You should not be unduly worried about the possibility of your children catching the Coronavirus. There is no reason why your children should not continue to attend their early years, school or further education setting as normal. We recognise that some families or children may be planning to travel to China during the forthcoming half term period. If so, please refer to the Foreign Commonwealth Office's latest travel advice via the link above.

What action you can take

A UK wide campaign has been launched to provide clear advice on how to slow the spread of Coronavirus. Please help to support the campaign which promotes basic hygiene practices, such as regularly washing hands and always sneezing into a tissue, to stem the spread of viruses.

If you have any questions, please do not hesitate to contact school.

Yours sincerely,

Dr Koutsou

Headteacher
